Wairarapa Green Dollars Newsletter May 1991

WAI\$V05/91

Greetings and congratulations to all you 30 or so founding members of New Zealand's newest Green Dollar Exchange.

In this newsletter you will find our first directory and membership contact list. All you need to do now is to skim the directory for goods & services you require or you can offer to another member, make contact with them, negotiate the cost and after the transaction is complete the member who is buying or hiring phones in the details to:

PH 89-567 between 5pm-7pm weekdays

Some members have begun trading already but not enough transactions have occurred to warrant sending out account statements until the next newsletter.

Remember as we are all still new at the venture and still developing and using a manual system some teething problems could be expected. We will appreciate some tolerance and patience for a while. Do not hesitate to make contact with anyone on the committee if you have any bright ideas or suggestions or if you think you could help us in some way and if you notice any errors please let us know as these will continue unless they are pointed out to us.
